

Call for applications: Research Fellowships for NCDs in Africa

Langue Undefined

"The African Population and Health Research Center (APHRC), in partnership with the International Development Research Centre (IDRC), are pleased to announce the call for applications for Research Fellowships for the Analysis of NCD Prevention Policies in Africa (ANPPA). The ANPPA Fellowship Program seeks to build capacity and the knowledge base for the utilization of multi-sectoral approaches in policy formulation and implementation for NCD prevention in the region."
